LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Surprise Valley Joint Unified School District
CDS Code: 25 65896 0000000
School Year: 2026-27
LEA contact information:
Audra Evans
Superintendent/Principal
Audra Evans
530-279-6141

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (Foster Youth, English learners, and low-income students).

Budget Overview for the 2026-27 School Year

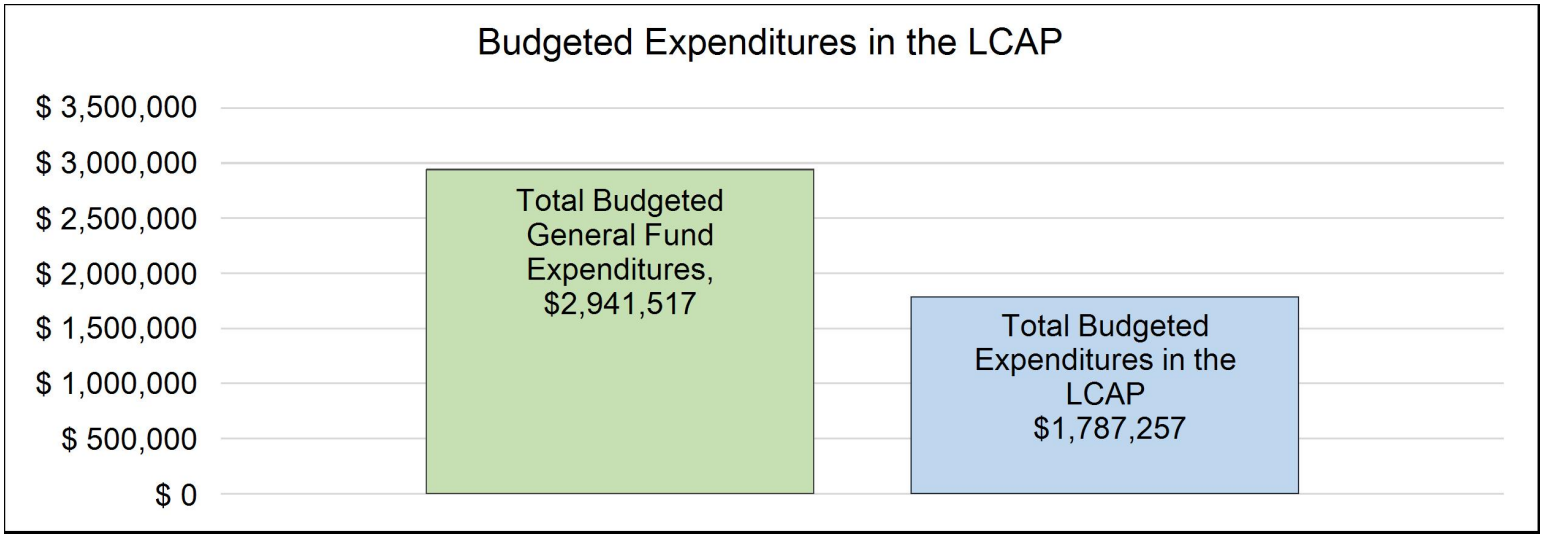

This chart shows the total general purpose revenue Surprise Valley Joint Unified School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Surprise Valley Joint Unified School District is $2,782,308, of which $2,150,397 is Local Control Funding Formula (LCFF), $341,526 is other state funds, $145,873 is local funds, and $144,512 is federal funds. Of the $2,150,397 in LCFF Funds, $274,292 is generated based on the enrollment of high needs students (Foster Youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Surprise Valley Joint Unified School District plans to spend for 2026-27. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Surprise Valley Joint Unified School District plans to spend $2,941,517 for the 2026-27 school year. Of that amount, $1,787,257 is tied to actions/services in the LCAP and $1,154,260 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

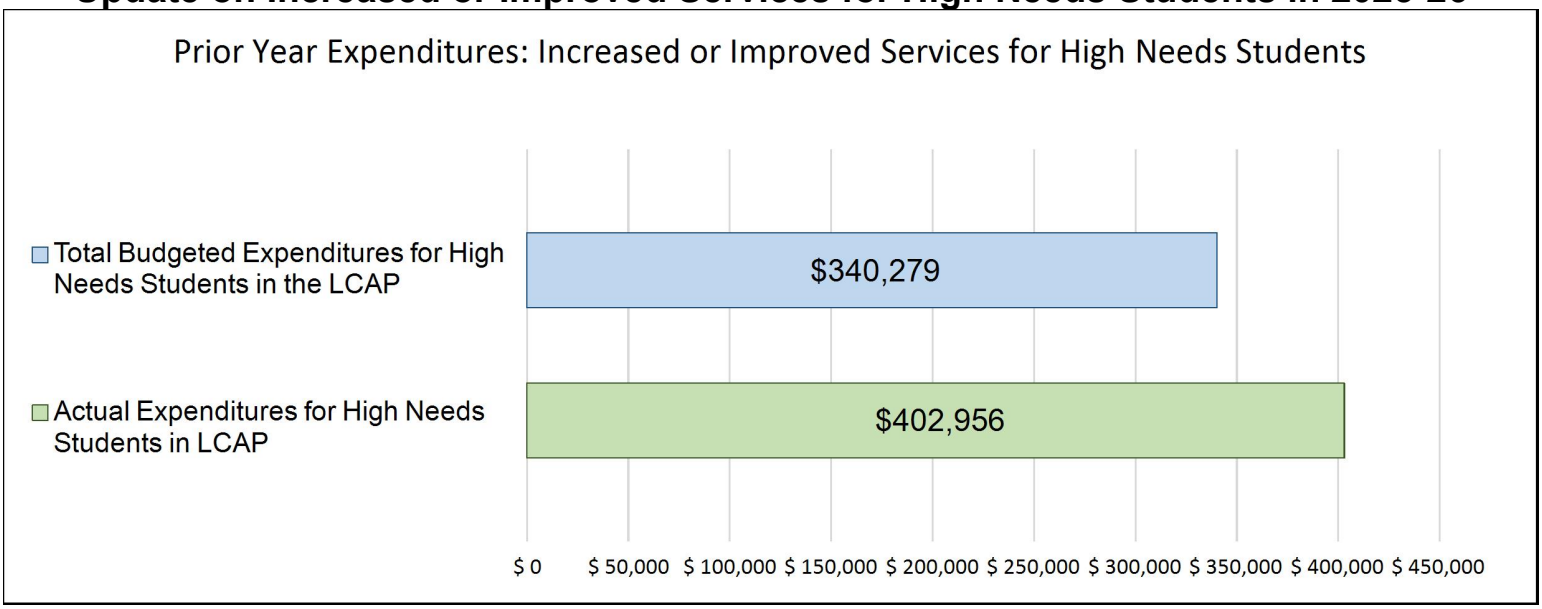

The District is planning for increased costs in maintenance, transportation and more healthy food choices for the students.

Increased or Improved Services for High Needs Students in the LCAP for the 2026-27 School Year

In 2026-27, Surprise Valley Joint Unified School District is projecting it will receive $274,292 based on the enrollment of Foster Youth, English learner, and low-income students. Surprise Valley Joint Unified School District must describe how it intends to increase or improve services for high needs students in the LCAP. Surprise Valley Joint Unified School District plans to spend $346,142 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2025-26

This chart compares what Surprise Valley Joint Unified School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Surprise Valley Joint Unified School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2025-26, Surprise Valley Joint Unified School District's LCAP budgeted $340,279 for planned actions to increase or improve services for high needs students. Surprise Valley Joint Unified School District actually spent $402,956 for actions to increase or improve services for high needs students in 2025-26.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2026-27]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

The Surprise Valley Joint Unified School District serves students from the four communities of Cedarville, Eagleville, Lake City, and Fort Bidwell. The valley is roughly 80 miles long and 10 miles wide, located in the far north eastern corner of California boarding Oregon and Nevada. The population in 2024 census was 1,096 people. Surprise Valley's racial makeup is 78% white, 7% American Indian, Hispanic 10%, two or more races 3%, with other races being less than 1%.The average household income in Surprise Valley is $53,493 compared to the state average of $99,122. The median housing cost in the valley is $244,700 compared to the state median of $734,700. The district enrollment is approximately 90 students. Our students that qualify for free and/or reduce meals is roughly 74%. Our district qualifies for Title 1 funding. This funding helps provide supports to our low performing and unduplicated students, but due to our small size, all of our students benefit. In addition, some of the LCAP metrics do not apply because of our size. These include the English Learner reclassificiate rate, programs and services developed and provided to unduplicated pupils, and students with exceptional needs. Also, because of class size, the CAASPP scores are not reported on the dashboard for grades 3rd-12th grades, because of the lack of data, Metric B and the Academic Performance Index was eliminated.

Our district consists of two schools, Surprise Valley Elementary School and Surprise Valley High School. In the 2019-2020 school year the schools consolidated to one site. Surprise Valley Elementary School serves students in grades K-7 and the high school, grades 8-12. Our special education program is supported by SVJUSD and Modoc County Office of Education. At the present time, due to declining enrollment and other factors of financial uncertainty, Surprise Valley Joint Unified School District does not offer alternative education opportunities.

Surprise Valley Joint Unified School District has struggled the past few years in the area of appropriate teacher assignment. Before Covid, we had 90% of all staff members meeting the highly qualified status. In years following Covid we have struggled to hire highly qualified staff For the 2025-2026 school year, our highly qualified teachers is at 78%. Our students have consistently had access to standards-aligned instructional materials. We use curriculum that is aligned to California's State Standards and are looking at K-8 science, math, and English Language Arts curriculum adoption in the near future In 2024-2025, the district adopted History Alive for our 1st-8th grade social studies curriculum. Our stakeholder groups felt that our facilities are in need of some repairs, however the campus is clean and well maintained.

Learning Recovery Emergency Block Grant Funding:
The district has remaining Learning Recovery Block Grant Funding (LREBG) that will be spent over the next three years to improve student performance. Following its 2025 districtwide needs assessment, SVJUSD identified significant academic achievement declines, particulary among unduplicated pupils impacted by pandemic-related learning disruptions. English Language Learners, low-income students, Hispanic students, and White students at SVES demonstrated marked regression in English Language Arts (ELA) and mathematics, while SVHS students critical performance drops in math across all student groups.

In response, the SVJUSD developed Action 1.4 by the Learning Recovery Emergency Block Grant (LREBG) to address these gaps beginning in 2025-2026. The following eveidence-based interventions are included: Accelerated Reader (AR): Enhances reading fluency and comprehension in early grades, especially effective for low-income students. These actions fall within the allowable uses of LREBG under Education Code 32526(c)(2): 1) Expanded instructional time, 2) Accelerated learning supports (e.g., literacy and math interventions), 3) Early intervention in literacy (e.g., AR in elementary grades), 5) Support for students at risk of not meeting standards, 6) Professional learning and instructional coherence. In addition, LREBG funds will supplement Action 1.4, continue to plan and implement intervention strategies that focus on academic improvement for students scoring below benchmark or students at risk of not graduating. This includes intevention classes, access to after-school and lunch time tutoring and Saturday school K-12.

The Surprise Valley Joint Unified School District's mission statement is: In partnership with families and communities is committed to: Embracing diversity and value of our small community; Nurturing a safe, healthy school environment; Cultivating self-directed, respectful, confident, productive students; Fostering creative expression, critical thinking, meaningful collaboration, effective communication, and technological literacy; Implementing rigorous standards of teaching and learning; Providing opportunities for well-rounded learning in the classroom and community; Promoting a college-going culture with families and students; and Preparing students who will make successful transition to the next level of achievement in a global society.

Surprise Valley Joint Unified School District scored in the red or orange in three categories on the California Dashboard. The district's Chronic Absenteeism rate is in the orange. The two sub groups that appear on the dashboard are Socioeconomically Disadvantaged (8.8% decline) and White (6.5% decline), with an overall decline of 6.3%. Our suspension rate was placed in the red. Our sub groups that are appearing on the dashboard are: Socioeconomically Disadvantaged with 16.1% of students suspended at least one day which is an increase of 7%, and white students with 6.3% suspended at least one day which is an increase of 0.7%. Our total supsension rate is 13%, an increase of 6.4%. The suspensions are mainly due to our zero tolerance policy of nicotine, vapes and/or alcohol on campus. Our ELA (English Language Arts) are also in the orange, 44.8 points below standard and this is a decline of 30.4 points. The district's math scores increased by 10.3 points, however the district is still 66.3 points below standard.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

According to the California Dashboard, Surprise Valley Joint Unified School District has one reported area in red and one area of orange. SVJUSD has had some academic successes over the last year. Due to the size of SVJUSD, the Dashboard provides limited information for us. According to the 2025-2026 Dashboard, the district's overall chronically absenteeism rate is 0%, but declined 6.3 pToints. he district is measured in the orange. Our suspension rate for the district has increased by 6.4% and our current suspension rate is 13% of students suspended at least one day. According the California Dashboard, SV Elementary had 3.8% of studnts suspended at least one day and this was a 3.8% increase. SV High School has a 25.6% suspension rate and this is an increase of 12.9%. Overall the district is placed in the red. According to the Dashboard, the district's ELA falls into the orange category on the graph. With English Language Arts, SVJUSD is 44.8 point below the state standard and has declined 30.4 points. The district's math scores came in at 66.3 points below the state standard, which was increased 10.3 points and places the district in the yellow.

The district continues to feel the affects of the Covid shutdown of 2020. We have been working hard to fill in gaps with interventions programs in both Math and ELA. Based on our Renaissance data, students are making growth in ELA and math from the beginning of the year to the end of the year. SVHS continues to expand their Career Technical Education (CTE) programs. Students at SVHS are continuing to pursue college courses for dual enrollment credits. The district continues to focus on MTSS (Multi-Tiered System of Supports) to support PBIS, SEL and academics. The district also received a MTSS grant to help with more implementation of tiered supports. Positive Behavioral Intervention and Supports (PBIS) has continued be an effective tool district wide. The district will continue to build on our PBIS program by continuing interventions for all grades TK-12, by creating more small groups, and more data tracking to guide us on further decisions for adding supports.

2026: Being that we are Tk-12 school we are finding things that are working with our younger students and not as much with our high school students in regards to our PBIS rewards system. The elementary students are using the "Hornet Tickets". These are handed out and each week drawings happen in the elementary classrooms and students receiveing Hornet Tickets are receiving prizes. Classes are filling up charts and when a class reaches one hundred tickets, they receive a class party. The high school students are using "Hornet Bucks". They are able to spend these bucks for snacks in the morning, entry to sporting events, or collect with classmates for different prizes. This year the high school also tried "house points" and this had some positives and negarives. Teachers are not using to the system to the best of its ability and student's knowledge of how to use the points is questionable. We are continuing to use 1-2-3 Wellness, which surveys students twice a day to do a check in on their well being, and for students this changes throughout the day. The district continues to use MTSS as a guide for implementing for tiered supports and we have been working with the county office of education to offer tier 3 supports to students. We implemented a new online intervention this school year for the elementary with reading and math. The students that participanted in the tutoring sessions seemed to enjoy them and felt they learned from the seesions. For the 2025-2026 school year, SVES partnered with BookNook to provide intervention services for reading (2-12 week sessions) and math (1-12 week session). The district also purchased NextGen Math for grades K-12. These tutoring sessions were 12 weeks, reading was four days a week for 30 minutes and math was three days a week for 30 minutes. We completed two twelve week sessions for reading and just one for math. The district is currently looking to adopt new math curriculum and after the new ELA framework comes out the district will be looking to adopt a new ELA curriculum.

2026-2027: After reviewing data for math and reading we still have some work that needs to be done to help some students close gaps. Intervention groups will continue next year either with BookNook, another online program to address further needs of our students, or hire an

intervention teacher. Setting specific times to have teachers complete 1-2-3 Wellness is also going to give us more specific data on regarding how our students are doing emotionally.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Parent	The District's strategy for engaging educational partners primarily involves in-person consultation through meetings and collaborative discussions. District Administration maintains an approachable and supportive environment, allowing educational partners to feel comfortable sharing their perspectives, needs, priorities, and recommendations during engagement opportunities. Requests for more art and music opportunities, questions about what the schools do well-communication and school spirit, school support to support the families-conference, parent meetings. Improve in supporting families-parent meetings, Google Classroom. The District had their literacy night on 10/22/25 and a Family Survey was sent out on 3/18/26
Students	The District's strategy for engaging educational partners primarily consists of in-person meetings and direct collaboration opportunities. District Administration fosters an approachable and welcoming environment in which educational partners feel comfortable sharing their perspectives, needs, priorities, and recommendations during engagement activities. In addition, the District held discussions with the student council regarding student wants and needs. Student feel there are high expectations, most are talked to about college, reading and math are important, they feel safe at school, they feel respected, school rules are clearly communicated with. Student Council met on : 9/22/25,10/20/25,11/17/25,12/8/25,1/6/26,2/9/26,3/16/26

Educational Partner(s)	Process for Engagement
Teachers	The District's strategy for engaging educational partners primarily consists of in-person meetings and direct collaboration opportunities. District Administration fosters an approachable and welcoming environment in which educational partners feel comfortable sharing their perspectives, needs, priorities, and recommendations during engagement activities. Teachers adjust data boards quarterly and use this tool to make informed decisions for interventions, and they provide input into curriculum and PLCs. Concerns about things on campus, also sharing positives. Meetings to address the LCAP specifically were held on 7/31/25,8/1/25,10/13/25,11/5/25 and 2/4/26, 5/6/26 during our staff development/staff meeting time.
Community Advisory Committee (Special Education)	The District's strategy for engaging educational partners primarily consists of in-person meetings and direct collaboration opportunities. District Administration fosters an approachable and welcoming environment in which educational partners feel comfortable sharing their perspectives, needs, priorities, and recommendations during engagement activities. The District met with the CAC which includes the SELPA Director on 8/26/25,10/14/25,12/9/25,2/10/26,4/14/26,
Foster Youth	The District's engagement strategy with educational partners is primarily centered around in-person meetings. The District met with Foster Youth liaison at Superintendent meetings 10/14/25, 12/9/25, 2/10/26. Updates were given regarding foster youth, new laws and training, the correct paperwork Meetings held 9/11/25 and 3/12/26 were Foster Youth Advisory Council and these meetings the district administration met through virtual opportunities.
Teamsters Local #137	The District's engagement strategy with our educational partners are primarily in the form of face-to-face meetings. Administrator is approachable and willing to work together to come to an agreement in the best interest of all parties. Most conversations were around salaries, insurance, contracts, schedules. The District met with Teamsters Local #137 on 10/10/25, and 5/21/26.
Ag Advisory	The District's strategy for engaging educational partners primarily consists of in-person meetings and direct collaboration opportunities.

Educational Partner(s)	Process for Engagement
	District Administration fosters an approachable and welcoming environment in which educational partners feel comfortable sharing their perspectives, needs, priorities, and recommendations during engagement activities. This board has encouraged the ag department to increase the amount of food that can be produced for our students to eat. New Hoop House to grow food.Discussions about opportunities students have through ag program. Ag advisory meeting 8/26/25,11/18/25 & 4/28/26
Classified staff	The District's strategy for engaging educational partners primarily consists of in-person meetings and direct collaboration opportunities. District Administration fosters an approachable and welcoming environment in which educational partners feel comfortable sharing their perspectives, needs, priorities, and recommendations during engagement activities. Building skills by attending professional development for classified staff and creating more of an ownership/purpose/direction supporting the learning of our students. Discussions regarding interventions, supports for students, behaviors and always have positives. Meetings held on 8/29/25,9/22/25,11/14/25,12/15/25,2/6/26,3/13/26, 5/3/26.
School Site Council	The District's strategy for engaging educational partners primarily consists of in-person meetings and direct collaboration opportunities. District Administration fosters an approachable and welcoming environment in which educational partners feel comfortable sharing their perspectives, needs, priorities, and recommendations during engagement activities. Sharing surveys and formulating ideas to increase our enrollment, discussed Single Site Plans, curriculum and LCAP. Discussion about curriculum and how our ELA program lacks the phonics and spelling. Meetings held on 9/8/25,1/5/26 & 3/16/26, 5/4/26
Administration with board	The District's engagement strategy with our educational partners are primarily to consult in face-to-face meetings. District Administration is very approachable and educational partners are comfortable with sharing wants, needs, and desires when engagement meetings occur. Share ideas/thought on how to build our enrollment, create new programs, adopting new math curriculum, the use of cell phones at school, attendance rates, suspension rates, and support staff with

Educational Partner(s)	Process for Engagement
	limited funding. Meetings held on 9/10/25,10/16/25,11/13/25,12/15/25,1/8/26,2/12/26,3/12/26,4/9/26 & 5/14/26
AAC	The District's engagement strategy with our educational partners are primarily in the form of face-to-face meetings. District and county admin meet bi-monthly to discuss special education needs and concerns: student counts, financials, legals information, hot topics, district needs, recruitment andpolicies. District Administrationis very approachable and educational partners are comfortable with sharing wants, needs, and desires when engagement meetings occur. Meetings held on 10/14/25, 12/9/25, 2/10/26, 3/3/26, 4/14/26.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Overall implementation of the District's planned actions has been consistent with the intentions outlined in the LCAP. Engagement with educational partners—occur through regular in-person meetings and surveys throughout the year—has been successfully carried out, with district administration remaining accessible and responsive. These face-to-face sessions created meaningful opportunities for stakeholders to voice their needs, priorities, and feedback, contributing to a stronger sense of collaboration and trust.

There were no significant deviations from the planned actions; however, the District did face some challenges related to scheduling and ensuring broad participation across all stakeholder groups. Despite these challenges, the high level of comfort and openness demonstrated by our educational partners during meetings has been a major success. Their input has directly influenced decision-making and helped guide resource allocation aligned with student needs. Concerns that were brought up were having a phonics program in the ELA curriculum, and retaining teachers.

Moving forward, the District is exploring additional methods—such as town hall meetings and a variety of surveys—to expand engagement and increase accessibility. The district is also tracking and using more data to struture intervention groups for reading and math, along with wellness groups. Discussions have been had with many of our educational partners regarding our curriculum and the California Frameworks. Our ELA scores are reflecting the lack of phonics and spelling, and math is reflecting the reading deficiencies and math fact retention. The district adopted new math curriculum for the 2026-2027 school year for grades 6-12. Declining math scores over the past couple of years has created concerns for stakeholders. District received support in ataining curriculum samples, the district had a curriculum day and curriculum was selected for grades 6-12, while elementary chose to pilot curriculum for the 2026-2027 year. K-8 will be looking at ELA curriculum during the 2026-2027 year and K-8 will be looking for science curriculum in the 2026-2027 year.

Presented to the Board of Trustees on June 11, 2026
Board approved on June 25, 2026

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Students at Surprise Valley Joint Unfied School Dsitrict will demonstrate academic and proficiencies needed to ensure they leave the TK-12 system college and career ready.	Maintenance of Progress Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)
Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 7: Course Access (Conditions of Learning)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

SVJUSD has developed this goal because our student's future success is important to our stakeholders. Our goal as a district is educate and prepare out students for life after school. Our local assessments indicate our students are more capable than the results of the state assessments. Our district will continue to provide a positive learning environment through interventions, continuing CTE pathways, and Multiple Tiers of Systems and Support (MTSS).

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Surprise Valley Joint Unified School District had some challenges, along with some successes with our planned actions and actual implementations to our 2025-2026 goal of demonstrating academic and proficiencies to be college and career ready. Our successes include maintaining 100% access to instructional materials, using Star Math, showing less than 20% of our students were in the yellow category (local data), 60% of our students met A-G requirements 9 (local), district maintained our CAST science scores being above state standard by 47.3 point, even with declining by 3.5 points (dashboard), maintained our reclassification of EL students, 60% of senior completed both A-G courses and completed at least one CTE pathway, and increased the number of students that met College Readiness in ELA.
The challenges the district is having is finding and retaining qualified teachers. ELA and Math continues to be a challenge for our district, our goal is to have less than 10% of students in Red and less than 20% of students in Yellow based of Star Reading and Math, and currently in ELA we have 12% in Red and 20.48% in Yellow. For math, our goal is the same, our results were 18.67% of students in Red and 16% of students in Yellow. Action 1.5, CTE pathway completions decreased by 10% in part to having less than 10 students which was set by the baseline. Action 1.7 college units earned decreased by one class due to classes not being passed. This ties into the CAASPP scores that

have decreased this past year, ELA decreased by 30.4 points now being 44.8 points below standard and math increased 10.3 points putting the district 66.3 points below standard. 1.14 students have decreased in Conditionally Ready in ELA, partly due to less students with 33% of students, however 33% of students qualified for College Readiness in ELA. The district had one student meet college readiness and one student met Conditionally Ready in math. While our outcome data demonstrates places where the goal was not met, we did implement our plan in each category with no substantive differences from our planned actions including providing opportunities such as CTE pathways, A-G courses, resources, materials, and support for students.

BookNook was a new intervention to the district this year and we used it for Reading in grades 3rd-7th. 71% of the students that participated in the BookNook Reading increased their STAR scores anywhere from 40 points to 106 points. BookNook math was only used with students in grades 4th and 5th. 92% of the students participating in the BookNook math increased their STAR scores anywhere from 11 points to 102 points.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There was a material difference between the budgeted and actual expenditures for the district's online curriculum. The district initially budgeted $11,600, but $63,520 was spent. This difference of $51,920 was spent using BookNook to support interventions for students grades 3-8. Not having an in person resource teacher has been a challenge when providing interventions to students. Action 1.2 has roughly at $19,000 difference of funds that were budgeted versus spent because no curriculum was purchased this year. Online curriculums were moved to technology which is Action 1.6. The budget for techonology was $31,000 and the district spent $46,400. The district purchased new Chromebooks, headphones, online curriculum to support the needs of all of our students. Action 1.4 has a difference of $26,400 from budgeted to actual do to having to have an additional instructional assistant to help with special education and assisting students with interventions. Action 1.14-Interventions this increased nearly $27,000 due to having online interventions for math and reading through BookNook.

The district in focused on interventions for all students, either through online interventions or in person supports. The goal is to get to our less than 10% of students in Red for reading and math and less than 20% of students in yellow for reading and math.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The district has focused mainly on reading interventions over the past few years. This past year we have realized there now needs to have more focus on math interventions as well. Our reading goal was to have 10% or less students in Red and under 20% in Yellow for Star Reading. Our results showed that we have 12% of students in the Red, which is 2% more that our goal, and we are at 20.4% of our students in Yellow. The same expectations are for math, our scores are 18.67% students in Red and 16% of students in Yellow. Staff have completed data boards the last two years to watch the growth students are making. There will be will some shifts in how reading interventions are being completed with more documentation and there will be an intervention in place for math to help fill holes that students have.

For the 2025-2026 school year, the district has put more focus into reading and math interventions for our elementary students

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

After reviewing implementation data, the district is continuing to focus on reading and math, and implementing more interventions with better tracking and data to increased student performance in these areas.

2025-2026: For small group/one-on-one interventions took place at the elementary level. We used BookNook for the intermediate levels and SIPPS has continued to be used at the primary level. Students enjoyed the BookNook online tutoring sessions, however the district feels there is a lack of data that shows the growth or lack of growth made through the twelve weeks of sessions. For 2026-2027 the elementary classrooms are looking at incorporating the Daily 5 into the reading blocks. The high school level is going to be working on incorporating All School Write into their programs.
BookNook was a new intervention to the district for the 2025-2026 year and we used it for Reading in grades 3rd-7th. 71% of the students that participating in the BookNook Reading increased their STAR scores anywhere from 40 points to 106 points. BookNook math was only used with students in grades 4th and 5th. 92% of the students participating in the BookNook math increased their STAR scores from 11 points to 102 points.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Professional Development	Provide professional development including but not limited to technology, MTSS/PBIS, TIC, SEL, UDL, ELA, Math, New curriculum frameworks, Get Reading Right, and induction programs for new teachers. All district training and stipends.	$13,000.00	Yes
1.2	Curriculum	Supplies for implementation of state standards, and curriculum for credit recovery.	$43,666.00	No
1.3	K-12 Summer School	Teachers and Instructional Assistants, along with custodial hours. Supplies, and transportation.	$60,228.00	Yes
1.4	Paraprofessionals	Continue to plan and implement intervention strategies that focus on academic improvement for students scoring below benchmark or students	$29,469.00	Yes

Action #	Title	Description	Total Funds	Contributing
		at risk of not graduating. This includes intervention classes, access to after-school and lunch time tutoring and Saturday school K-12.		
1.5	Additional Teacher Time	Continue to maintain or increase the rate of HS students participating in career and technical education (CTE) courses.	$10,140.00	No
1.6	Technology	Provide technology upgrades and enhancements as necessary.	$57,630.00	No Yes
1.7	ELA	Continue to establish school-wide all school write benchmarks, timelines, procedures and topics. Additional programs include Renaissance Learning, Fast Forward, SIPPS, Espark.	$13,700.00	No Yes
1.8	Math	Renaissance Learning, IXL	$16,000.00	No Yes
1.9	Online curriculum	Curriculum assessment for 8th-12th grades.	$42,100.00	No Yes
1.10	Elementary Teachers	Maintain 4 FTE at the elmentary site	$408,022.00	No
1.11	High School Teachers	Retain over 3.5 FTE at the HS in order to maintain high school funding block.	$407,520.00	No
1.12	Special Education Teacher	District hiring 1.0 FTE	$80,000.00	No

Action #	Title	Description	Total Funds	Contributing
1.13	Special Education Paraprofessional	District is continuing to hire paraprofessionals.	$76,774.00	No
1.14	Intervention, Evidence Based Interventions	Accelerating progress to close learning gaps through implementation, expansion, or enhancement of evidence based learning supports. Tutoring or other one-on-one or small group learning supports provided by certificated or classified staff. Learning Recovery Emergency Block Grant (LREBG).	$5,000.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Continuous improvement of school culture, climate and safety to maximize student learning.	Maintenance of Progress Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)
Priority 3: Parental Involvement (Engagement)
Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)
Priority 7: Course Access (Conditions of Learning)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Surprise Valley Joint Unified School District developed this goal because having have a positive school culture, climate and a safe school are high priorities for our educational partners.

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

SVJUSD is working on improving our attendance rates for both the high school (up 2.5%) and elementary school (up 0.7%). The chronic absenteeism have decreses high school (decreased 5.01%) and elementary school (decreased 10.43%). We also want to improve our suspension rates(high school 28.9% & elementary school 3.8%), however there is zero tolerance for substance use at school or at school activities. The district is working at getting our facilities in to better conditions, but it depends on funding.

2025-2026- The suspension rate for the high school and elementary school are half of what they were last year and they are below the baseline. The district's atttendance rates are up to 93%, but not quite to the goal of 95%. Both the elementary and the high school have increased attendnace rates for this year and they are higher than the baseline, both improving just shy of 2%. This is difficult when there are major sicknesses going through the community. The district has maintained having three family nights, two that tie in with the elementary conferences and a high school college and career night.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

2024-2025: We have stayed within our budget, the increasing costs to operate continues to increase the strain on the district's finances. Finding staff members that are invested in the school is extremley important. District budgeted roughly $70,000 for our transportation department, however due to a bus continuing to break the distriction purchased a new bus bringing out expenditures to $292,000 in our transportation budget.

2005-2026- There were no real unexpected costs for the district this year. Both buses were running well. The increase in fuel prices has increased our actual expeditures for transportation. An increasing cost is going to be from SB 88, due to having all vehicles inspected annually, along with having training for those drivers that tend to drive more than 40 hours with students per year. This affects, teaching staff, coaches, and other employees that have to fill in to cover bus routes.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

2024-2025: The district needs to continue to focus on increasing our attendance rates and lowering our supspension rates. Attendance rates for the both schools based on local data, has increased-elementary from 92.5% to 94.3% and high school 91.5% to 92.3 %, and our goal is 95% at both schools. Suspension rates at the high school have increased from 15.21% to 28.9% and elementary has decreased from 6.25% to 3.8%. SVJUSD has 100% graduation rate, based on local data.

2025-2026 The district was able to increase attendance rates for both the high school and elementary by just shy of 2% to 93% at both the high school and the elemenatry school. The suspension rates are half of what they were last year, high school going from 28.9% to 14% and the elementary went from 3.8% to 1.7%. The no tolerance policy for substances is something the district is really striving for. Less students have been caught with products they should not have no campus, based on our local data. With the improvement of school culture, students are attending school more often with less behavior problems that are resulting in suspensions.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

The district is in the process of applying for a modernization grant to help improve our facilities. The district is also working with local agencies regarding substance use and mental wellness to help our ensure out students are feeling safe and supported.

2025-2026 The district continues to be patient for the modernization grant, but will also by applying for the Prop 2 for the small district when the grant becomes available. The district is trying to make repairs and updates to the facilites as money is available. The district is also working with local agencies regarding substance us and mental wellness.

2026-2027: The district will continue be applying for the Prop 2 grant in November for small/rural school moderinization, and has been working with a consulting firm to make sure everything is in place for that to happen. Making repairs on the school has been a slow process, but will be replacing the roof on the main building in this coming school year. Working with the student body to continue to build a positive school culture and creating opportunities for students is also a focus for the district.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Positive Behavior Intervention and Supports (PBIS)	Provide incentives and supports for students. Use data from the Healthy Kids Survey and PBIS SWIS to determine school behavior and social-emotional needs.	$1,400.00	No
2.2	Multi Tiered System of Supports (MTSS)	Providing tiered level of supports to students through interventions and 1-2-3 Wellness checkins and lessons. Using MTSS and PBIS. EL, Foster Youth, and low income	$0.00	Yes
2.3	Work with grant writers to find funding for maintenance, secruity, technology, transportation and other grants	Work with a grant writer to research and help write grants to help fund projects in maintenance, secruity, technology, transportation and other grants that will help benefit our school culture, climate and secruity.		No
2.4	Radio Repeater	Continue to utilize radio repeater system for emergency services.	$600.00	No
2.5	Power School and Apptegy	Power School is the SIS system for the district. Apptegy is used a communication tool for the district to reach families in multiple forms in a short amount of time, including a website.	$9,000.00	No
2.6	Custodian	Custodian to provide a clean facility which includes supplies.	$43,000.00	No
2.7	Maintenance	Provides a clean and safe facility for students which includes supplies.	$258,011.00	No

2.9	**Action:** Transportation **Need:** This action is being implemented LEA-wide but is principally directed towards our socioeconomically disadvantaged students. The California Dashboard reports chronic Absenteeism for the district is 6.3%. Too many students district-wide are performing below the standard in ELA and math. Two subgroups are performing below standard (Hispanic and Socioeconomically Disadvantaged) in Math	Without transportation provided by the District, socioeconomically disadvantaged students may not have the opportunity to attend school every day due to the lack of transportation/funds of families, due to the distance traveled to school and home. Many families are more than 20 miles away. District needs to provide reliable transportation to all families.	Attendance rates 2.4 5A Attendance rates 2.5 5B Chronic absenteeism

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	and ELA, as indicated on the California Dashboard. The district's attendance goal is 95%, and currently high school is 92.3% and elementary school is 94.3%. **Scope:** LEA-wide		
2.10	**Action:** Cafeteria **Need:** This action is being implemented LEA-wide but is principally directed towards our socioeconomically disadvantaged students that have chronic absenteeism, with the district at 6.3%. All students are able to eat two meals a day from through our breakfast and lunch program. The district's attendance goal is 95%, and currently high school is 92.3% and elementary school is 94.3%. **Scope:** LEA-wide	To provide students with a healthy meals to assist with nutrition which supports learning for all students. Our cafeteria feeds all students including our subgroup (socioeconomically disadvantaged). Providing all students with breakfast and lunch allows for the students to be focus on their studies throughout the day. Providing meals to students will hopefully help increase our attendance rates and decrease our chronic absenteeism rates.	Test results will show an increase with effective nutrition 2.2 3A Seek parent input in making decisions 2.5 5A Attendance rates 2.11 6C Survey of students, staff, parents and community members

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
1.4	**Action:** Paraprofessionals **Need:** Academic Performance **Scope:** Limited to Unduplicated Student Group(s)	One-on-One accessibility to tutors, etc.	Renaissance Testing and eSpark testing 1.2 1B Sufficient access to the standards-aligned instructional materials at the necessary levels 1.3 8 Measure of academic progress in ELA 1.4 8 Measure of academic progress in Math 1.15 2A Implement state board adopted materials and performance standards for all students

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Not applicable

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

The district will continue to provide services that are specificially directed to meeting the District's goals 1 and 2 for its unduplicated pupils by providing the following actions: encouraging staff to attend professional development that will help increase the strategies and learning for our students, 1.3 providing more learning time for undeuplicated students through the ELOP program during the summer, and 1.4 increasing the amount of small group time and time to work with students one to one for our unduplicated pupils.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	0	3-to-98
Staff-to-student ratio of certificated staff providing direct services to students	0	8-98

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

    - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

        - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32627(d), to provide the information identified above or to include actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement
An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:
    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
    - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
    - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. "Effective" means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
    - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
    - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG

Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32627(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
  - Identify the action as an LREBG action;
  - Include an explanation of how research supports the selected action;
  - Identify the metric(s) being used to monitor the impact of the action; and
  - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.

- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.

    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.

    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.
    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
